

Simple Login Page with CSS in React JS

Open our last project (React JS) with VS Code

Then we create login page.

Inside "src" folder, create **Login.jsx**

Replace **Login.jsx** with this code:

```
import './App.css';

function Login() {
  return (
    <div id="login-form">
      <h1>Login</h1>
      <form>
        </img>
        <label htmlFor="username">Username:</label>
        <input type="text" id="username" name="username" />
        <label htmlFor="password">Password:</label>
        <input type="password" id="password" name="password" />
        <input type="submit" value="Submit" />
      </form>
    </div>
  );
}

export default Login;
```

Note: On web-based applications running in a browser, we use CSS to design HTML page.
For complete documentation for CCS you can find here <https://www.w3schools.com/css/>

Open and replace **App.css** (inside **src** folder) with this code:

```
#root {
  max-width: 1280px;
  margin: 0 auto;
  padding: 2rem;
  text-align: center;
}

login-form {
  width: 400px;
  max-width: 100%;
  margin: 50px auto;
  background-color: lightblue;
  border-radius: 10px;
  box-shadow: 0 10px 20px rgba(0, 0, 0, 0.1);
  font-family: "Poppins", sans-serif;
}

#login-form h1 {
  text-align: center;
  margin: 0;
  padding: 20px 0;
  font-size: 28px;
  font-weight: bold;
  color: white;
}

#login-form form {
  padding: 20px;
  background-color: white;
  border-radius: 10px;
  font-family: "Poppins", sans-serif;
}

#login-form form label {
  display: block;
  margin-bottom: 8px;
  font-size: 14px;
  color: gray;
  font-family: "Poppins", sans-serif;
}

#login-form form input[type="text"],
#login-form form input[type="password"] {
  width: 100%;
  padding: 12px;
  border: 1px solid lightgray;
  border-radius: 5px;
  font-size: 16px;
  box-sizing: border-box;
  margin-bottom: 20px;
}
```

```

}

#login-form form input[type="submit"] {
  width: 100%;
  padding: 12px;
  background-color: dodgerblue;
  border: none;
  color: white;
  font-size: 16px;
  font-weight: bold;
  border-radius: 5px;
  cursor: pointer;
  box-shadow: 0 4px 6px rgba(0, 0, 0, 0.1);
  transition: background-color 0.3s ease;
}

#login-form form input[type="submit"]:hover {
  background-color: deepskyblue;
  box-shadow: 0 4px 6px rgba(0, 0, 0, 0.3);
}

```

Open and replace **main.jsx** (inside **src** folder) with this code:

```

import React from "react";
import ReactDOM from "react-dom/client";
import Login from "../Login.jsx";
import "../index.css";

ReactDOM.createRoot(document.getElementById("root")).render(
  <React.StrictMode>
    <Login />
  </React.StrictMode>
);

```

Open VS Code terminal and run this command to start project:

```
npm run dev
```
